## ***DON'T TRASH PROPOSAL G***

Proposal G, passed overwhelmingly by Michigan voters in 1996, still matters to Michigan's outdoors community.

**Now is the time to make a better natural resources Department.**

**Politics have no place in the outdoors.**

**Contact your legislator** and tell them that while the merger of the DNR and DEQ makes sense, having the Director of that new department be politically-appointed is not an acceptable option. **Make your voice heard. Protect our outdoor heritage.**
