

2024 MUCC Post Convention Resolutions and Summaries

Prepared by MUCC Staff

PASSED RESOLUTIONS

Resolution #2

Submitted by: Richard P. Smith, Life Member
Title: Expanding Michigan's Bottle Bill

MUCC will work with state Legislators in drafting Legislation to expand Michigan's Container Deposit Law to include more types of beverages.

Resolution #3

Submitted by: Brian Herbert, Paw Paw Conservation Club
Title: Develop a Cormorant Control Program Using Volunteer Licensed Hunters

MUCC will work with the Michigan DNR and U.S. Fish and Wildlife Service to create and implement a hunting permit program for volunteer hunters to participate in harvesting cormorants for population management.

Resolution #4

Submitted by: Patrick Murphy, Individual Member
Title: Consistency in Au Sable River Trout Fishing Seasons

Michigan United Conservation Club shall work with the Michigan Department of Natural Resources, the Au Sable Citizens Advisory Committee and the NRC to change the classification and/or fishing regulations of the stretch of the Au Sable River from Evans Road (McKinley Bridge) to 4001 Bridge to provide year-round trout angling opportunities consistent with the remainder of the Au Sable river system above Alcona Pond.

Resolution #6

Submitted by: George Lindquist, Executive Board
Title: Michigan Moose Hunt

MUCC work with the Michigan DNR, Natural Resources Commission, and Legislature to conduct a very limited bull moose hunt in the UP of Michigan and a separate lottery, much like the current elk lottery, with monies derived going to sustaining and growing this iconic species in Michigan.

Resolution #7

Submitted by: Zach Snyder, Region 8 CPB
Title: Recommend Michigan DNR to allow transfer of "remaining" points to those who qualify

MUCC work with the DNR to allow any points beyond what is necessary for an applicant to draw their tag to be transferable to those eligible within the already established guidelines of the DNR hunt transfer program.

Resolution #8

Submitted by: Eric Braden, Executive Board
Title: Boat Registration Fee Increases

MUCC will work with the legislature, DNR, and stakeholders to increase boater registration fees to ensure that the revenues generated will continue to augment the resources required to

operate and maintain the Michigan State Waterways Program, including the public DNR-owned and Grant-in-Aid harbor facilities and boating access sites and the overall infrastructure and operations needed to support a sustainable, statewide recreational boating program.

Resolution #9

Submitted by: Rob Miller, Vice President, Mark Tarman, Individual Member
Title: Treestands on Public Lands

MUCC supports NRC action to change the current regulation that allows an individual to utilize another individual's legally placed hunting equipment, such as a tree stand or other portable blind on public property, and make it illegal to knowingly use a legally placed stand or blind that does not belong to you or one of your immediate hunting party, without written permission to do so.

MUCC work with the DNR to correct the explanation of using someone else's tree stand in the hunting digest.

Resolution #10

Submitted by: Erik Schnelle, Michigan State Council – National Deer Association
Title: MUCC Support For DMU Antlerless Harvest Goals

MUCC work with the DNR and NRC to implement annually adjusted DMU level antlerless harvest goals, educate and inform hunters regarding those goals, provide in-season information to hunters on goal achievement, and in cases of significant overharvest allows for the closing of seasons or limitation of additional harvest.

Resolution #11

Submitted by: Merle Jones, MTPCA
Title: Support of Year Round Coyote Hunting

Michigan United Conservation Clubs support “year-round” Coyote Hunting, and stand in opposition to any further limitations, restrictions, or bans including those on coyote hunting tournaments that follow hunting regulations or bans that would reduce the opportunities for the vital management of coyote populations, lacking any significant biological justification.

MUCC supports the quiet period from April 16th - July 7th where no hunting dogs are allowed.

Resolution #12

Submitted by: Travis White, Individual Member
Title: Protecting the High-Quality Lake Trout Fishery of Stannard Rock

MUCC work with the DNR to educate the public on Catch and Release to protect the high-quality Lake Trout fishing destination that is the legendary Stannard Rock fishery, and;

MUCC encourage and support the DNR to conduct more frequent, regular biological assessments in addition to social science to better understand and quantify the attributes that make Stannard Rock a unique fishery on the Great Lakes, and;

MUCC work with the DNR to study the effectiveness of deep water release methods to increase survivability over surface release and explore other methods of maintaining the Stannard Rock

lake trout population dynamics. This might include defining baseline population metrics and establishing management criteria to maintain or improve on those metrics over time through available management tools, regulations, and angler behaviors, and;

MUCC work with the DNR and NRC to create a zone and designation to recognize and protect the Stannard Rock fishery, potentially with different regulations informed by science, to protect its high-quality status against increasing angling exploitation, consistent with the management objectives established by the draft Lake Superior Fisheries Management Plan 2023–2033.

Resolution #13

Submitted by: UP Whitetails of Marquette County, Region 1
Title: Include crop damage and DMAP take in harvest reporting

That the DNR, to better show the public a more detailed picture of our whitetail deer harvests, add a column to the yearly harvest reports with Crop Damage, culls, tribal harvest, disease control permits (DCP) and DMAP numbers listed, and use these numbers in the total yearly harvests.

Resolution #14

Submitted by: Erik Schnelle, Michigan State Council – National Deer Association
Title: Support For Expansion of Venison Donation Programs

that MUCC work with the DNR and legislature to ensure that The state of Michigan provide the funds and policies necessary to efficiently test and distribute venison to the states-hungry, to expand the program to processors in every county in the state, to compensate processors for donated venison at annually adjusted market rates, ensure that processors have adequate storage space for donated venison while waiting for test results (in some cases this may mean providing seasonal refrigerated trailers or freezers), and that they are compensated for the necessary additional mandated lead, CWD and bTB testing work.

MUCC continue to work for programs, which could include license fee rebates, to encourage venison donations from hunters and donations from culling programs.

MUCC work with the DNR to help educate the hunting community and license agents to support MSAH.

Resolution #15

Submitted by: Eric Braden, Executive Board
Title: MUCC Opposition to the Nyberg Amendment

MUCC strongly opposes the proposed Nyberg Amendment based upon information provided by MDNR Biologists, as outlined in the “Michigan Steelhead Management – Large River Creel Surveys to inform Status of the fishery”, Presenters Seth Herbst and Jay Wesley NRC Fisheries Subcommittee Meeting September 14, 2023,

That the NRC work with the MDNR Biologist, State Universities, Organizations and the many Citizens Fisheries Advisory Councils to provide and assess information for the “Science-based” management of Michigan’s Fisheries.

Resolution #17

Submitted by: Steve Dey, Executive Board, George Lindquist, Executive Board, Gary Gorniak, CPB Region 2
Title: Support of the Sportsmen's Alliance Actions MUCC supports the Sportsman's Alliance Foundation in both its petitions for Gray Wolf management.

Resolution #19

Submitted by: Education Committee, Dawn Levey, Executive Board, Len Shaner, Executive Board
Passed: February 7, 2024 Executive Board Meeting
Title: Use of Social Media by Members

Michigan United Conservation Clubs educate members, affiliates, and club members on the implications of posting perceived offensive photographs and materials that may offend the general public and would give reasons for organizations like the Humane Society of the United States to use them against gun owners, hunters, anglers and trappers.

MUCC work with and encourage individuals and other conservation organizations and hunting, fishing, trapping, shooting sport groups to also refrain from publicizing perceived offensive photographs or information.

FAILED RESOLUTIONS

Resolution #1

Submitted by: Richard P. Smith, Life Member
Title: Weatherproofing Labels on Beverage Bottles

MUCC will work with state Legislators in drafting legislation to require bottlers who sell beverages in Michigan to have weatherproof labeling on their bottles to comply with the state's Container Deposit Law.

Resolution #5

Submitted by: Todd Johnson Region 4 CPB, Luke Sitton Life Member
Title: Supporting Mandatory Antler Point Restrictions

MUCC will support the adoption of antler point regulations that are designed to protect the majority of yearling bucks, while also making a majority of 2.5-year-old bucks eligible for harvest.

Resolution #18

Submitted by: MUCC Fisheries Committee
Title: Additional Trolling Rods Proposal

Michigan United Conservation Club opposes the proposal for a license to allow an additional three trolling rods based on:

- A) This proposal is viewed as preferential treatment for only one group of anglers, experience within the committee has indicated that additional rods with a minimal inexperienced crew would only create an unsafe operation of the boat and related gear when handling multiple hook ups in congested high density trolling areas,
- B) The committee believes the method of take is an important management tool and additional

rods would only lead to a reduction in the allowable daily creel,
C) The committee believes that a verification of impact to the fishery as relates to the 2023 consent decree reintroduction of tribal gill nets needs to be understood before making additional changes to method of take to minimize impact upon the fishery,
D) The committee believes the cost to implement this proposal for an additional three rods would be more than the perceived funding generated as there is no data available to date to support the GLSI suggested benefit.

WITHDRAWN RESOLUTIONS

Resolution #16

Submitted by: MHDF, MBHA, UPBHA, MSCHA, MSFHA

Title: Dog hunting quiet period

MUCC supports the quiet period from April 16-July 7 where no hunting of coyotes with dogs is allowed.*

*Contents of Resolution #16 was included in another resolution.

Resolution #2
Requires 2/3 Majority
PASSED

Submitted by: Richard P. Smith, Life Member
Passed: March 9, 2024 Annual Convention
Title: Expanding Michigan's Bottle Bill

1. **WHEREAS:** the state's Beverage Container Deposit Law, which went into effect during
2. December of 1978, has been a major success by reducing litter and increasing recycling among
3. other benefits, and;
4. **WHEREAS:** more than 90% of the cans and bottles covered under the Container Deposit Law
5. have been returned in most years since the law has been in effect, according to the
6. Department of Treasury, and;
7. **WHEREAS:** not all beverage containers are covered under the Container Deposit Law such as
8. sports drinks, water bottles, canned and bottled coffee, and tea, and;
9. **WHEREAS:** drink containers that do not currently have deposits on them make up a significant
10. amount of litter along Michigan roads, and;
11. **WHEREAS:** expanding Michigan's Container Deposit Law to include other beverages such as
12. sports drinks, water bottles, coffee, tea, and lemonade would reduce litter from the containers
13. these drinks come in and would further increase recycling of those containers, NOW;
14. **THEREFORE BE IT RESOLVED:** that MUCC will work with state Legislators in drafting
15. Legislation to expand Michigan's Container Deposit Law to include more types of beverages.

Resolution #3
Requires 2/3 Majority
PASSED UNANIMOUSLY

Submitted by: Brian Herbert, Paw Paw Conservation Club
Passed: March 9, 2024 Annual Convention
Title: Develop a Cormorant Control Program Using Volunteer Licensed Hunters

1. **WHEREAS:** As of 2021, The U.S. Fish and Wildlife Service has authorized the State of
2. Michigan the authority to control cormorant populations by allowing a take of 11,050 cormorants
3. on a depredation permit, and;
4. **WHEREAS:** the lack of funding and manpower has the state of Michigan applying for less than
5. one-half of our authorized number of cormorants on the depredation permit. As a result, in 2022,
6. only 2,800 birds were dispatched, roughly 25% of our permit allowance, which allows the
7. cormorant numbers to keep increasing, and;
8. **WHEREAS:** a recent 2022 Cormorant Consumption Study by Michigan State University shows
9. a significant impact cormorants have on free-swimming fish, and;
10. **WHEREAS:** the 2023 MUCC Convention passed a resolution submitted by Gary Gorniak,
11. Straits Area Sportsmen's Club, to add cormorant control to the DNR Budget and re-implement
12. the very successful U. S. Department of Agriculture Wildlife Services program of cormorant
13. control utilizing volunteers, and;
14. **WHEREAS:** the 2023 MUCC Convention resolution provided compelling details on the
15. negative impact of cormorants on the gamefish population and economy of Michigan; and,
16. **WHEREAS:** the available workers, to carry out the cormorant control program, are limited even
17. if funding is included in the DNR budget, and;
18. **WHEREAS:** volunteer anglers and hunters are motivated to participate in the cormorant control
19. program, significantly reducing costs for achieving the population harvest goal authorized by the
20. U.S. Fish and Wildlife Service, and;
21. **WHEREAS:** cormorants are migratory waterfowl and other waterfowl such as ducks, geese,
22. swans, cranes and mergansers are hunted, and;
23. **WHEREAS:** the Michigan DNR and U.S. Fish and Wildlife Service have the authority to set
24. seasons, and bag limits for migratory waterfowl, NOW;
25. **THEREFORE, BE IT RESOLVED:** MUCC will work with the Michigan DNR and U.S. Fish and
26. Wildlife Service to create and implement a hunting permit program for volunteer hunters to
27. participate in harvesting cormorants for population management.

Resolution #4
Requires 2/3 Majority
PASSED UNANIMOUSLY

Submitted by: Patrick Murphy, Individual Member
Passed: March 9, 2024 Annual Convention
Title: Consistency in Au Sable River Trout Fishing Seasons

1. **WHEREAS:** Downstream of the headwaters of major trout streams in central and northern
2. Michigan including the Pere Marquette, Muskegon, and Manistee Rivers are regulated as Type 3
3. or Type 4 Trout Streams and/or have Special Gear Restrictions, making them open for fishing
4. opportunities year-round, and;
5. **WHEREAS:** All portions of the Au Sable River system downstream of their headwaters,
6. including the North Branch, South Branch, and Au Sable mainstream above Evans Road
7. (McKinley Bridge) are regulated as Type 4 or Special Gear Restriction streams, making them
8. open for fishing opportunities year-round, and;
9. **WHEREAS:** The Au Sable mainstream from Mio Dam to Alcona Pond is approximately 24-
10. mile uninterrupted, continuous stretch of river, and;
11. **WHEREAS:** The Au Sable River below Alcona Pond extending into Iosco County is classified
12. as a Type 4 Trout Stream, making it open for fishing opportunities year-round, and;
13. **WHEREAS:** The final portion of this uninterrupted, continuous stretch of the Au Sable
14. mainstream from Evans Road (McKinley Bridge) to 4001 Bridge is regulated as a Type 2 Trout
15. Stream in which fishing is closed from October 1 until the last Saturday in April, NOW;
16. **THEREFORE BE IT RESOLVED:** Michigan United Conservation Club shall work with the
17. Michigan Department of Natural Resources, the Au Sable Citizens Advisory Committee and the
18. NRC to change the classification and/or fishing regulations of the stretch of the Au Sable River
19. from Evans Road (McKinley Bridge) to 4001 Bridge to provide year-round trout angling
20. opportunities consistent with the remainder of the Au Sable River system above Alcona Pond.

Resolution #6
Requires 2/3 Majority
PASSED UNANIMOUSLY

Submitted by: George Lindquist, Executive Board
Passed: March 9, 2024 Annual Convention
Title: Michigan Moose Hunt

1. **WHEREAS:** the Western UP moose of today are primarily descendants of animals brought in
2. from Canada in 1985 and 1987. Thanks to the efforts of the DNR and money from private
3. groups, primarily Safari Club International, along with other conservation organizations,
4. including MUCC, we now have a stable, sustainable population of moose in the UP, and;
5. **WHEREAS:** it is inevitable that moose within the population will die every year. Older animals
6. are more susceptible, especially bull moose. Having special hunts would bring awareness and
7. monies towards better management and growth of the UP moose population, and;
8. **WHEREAS:** with the UP moose population stable and increasing, a limited hunt will not affect
9. the existing herd and will draw attention to the moose herd of the UP, and;
10. **WHEREAS:** the monies gained by a moose hunt can and should be earmarked for UP moose
11. research, habitat work, and development of a long-term management plan to ensure the viability
12. of this iconic species, and;
13. **WHEREAS:** only Michigan residents can apply for the drawing of the moose lottery and such
14. tags would be a “once in a lifetime” tag, and;
15. **WHEREAS:** the hunts would be overseen by DNR personnel to ensure that the animals
16. harvested will not harm the existing moose population. IE, the harvest of only older bulls, and;
17. **WHEREAS:** these drawings should be conducted as a lottery, much like our current elk hunts,
18. where every sportsman of the State of Michigan has an opportunity to draw one of these
19. coveted tags, NOW;
20. **THEREFORE BE IT RESOLVED:** that MUCC work with the Michigan DNR, Natural Resources
21. Commission, and Legislature to conduct a very limited bull moose hunt in the UP of Michigan
22. and a separate lottery, much like the current elk lottery, with monies derived going to sustaining
23. and growing this iconic species in Michigan.

Resolution #7
Requires Simple Majority
PASSED

Submitted by: Zach Snyder, Region 8 CPB
Passed: March 9, 2024 Annual Convention
Title: Recommend Michigan DNR to allow transfer of “remaining” points to those who qualify

1. **WHEREAS:** currently, applicants who are selected in the bear drawings may transfer their
2. successfully drawn tag success to an eligible person they know, or to an individual on
3. the Department of Natural Resources (DNR) hunt waiting list, and;
4. **WHEREAS:** currently an eligible person is described as a hunter under the age of 16 who
5. applied and was not drawn for a bear license, or any person who has been diagnosed with an
6. advanced illness, and;
7. **WHEREAS:** In 2023 140 people were on the DNR waitlist, and;
8. **WHEREAS:** of the 140 on the waitlist only 21 were donated a license, and;
9. **WHEREAS:** currently, upon purchasing a leftover bear tag, or successfully drawing a bear
10. license, bear preference points are reset to zero, and;
11. **WHEREAS:** many applicants possess an excess amount of points necessary to draw their
12. desired tag, and;
13. **WHEREAS:** for example, a hunter may have 18 points, but choose to hunt a unit that only
14. requires 8 points to draw their tag, and;
15. **WHEREAS:** under the current design, those points are reset to zero, rather than a potential
16. remaining points balance, 10 being the remainder from the example given, and;
17. **WHEREAS:** those remaining points could be transferred, or donated to an eligible person,
18. allowing more youth and those with advanced illness more opportunity to receive a tag, NOW;
19. **THEREFORE BE IT RESOLVED:** that MUCC work with the DNR to allow any points
20. beyond what is necessary for an applicant to draw their tag to be transferable to those eligible
21. within the already established guidelines of the DNR hunt transfer program.

Resolution #8
Requires 2/3 Majority
PASSED

Submitted by: Eric Braden, Executive Board
Passed: March 9, 2024 Annual Convention
Title: Boat Registration Fee Increases

1. **WHEREAS:** The Michigan State Waterways Commission (MSWC) Resolution No. 10-2023-02
2. indicates boat registration fees, along with a portion of the gasoline tax, support the Waterways
3. Funds available for operation and maintenance of recreational boating facilities and water safety
4. law enforcement, these fees have remained unchanged since 1993, and;
5. **WHEREAS:** a 2019 Waterways Facilities needs assessment concluded that there was a high
6. priority need of \$92M just to improve state-administered recreational boating facilities including
7. Harbors and Boating Access Sites in addition there are critical infrastructure needs for the Grant-
8. in-Aid harbors, and;
9. **WHEREAS:** A recent Interoffice Communication from Ron Olson, the Chief of Parks and
10. Recreation Division reiterated that “Inflation, the costs to operate, and an aging infrastructure
11. remain critical needs with insufficient funding”, and;
12. **WHEREAS:** In March of 2023 MUCC membership approved a resolution to bring pontoon
13. registration fees in line with other vessels of a similar size, and;
14. **WHEREAS:** The MSWC recommends that the fees be gradually increased to bring them in line
15. with inflation, NOW;
16. **THEREFORE BE IT RESOLVED:** MUCC will work with the legislature, DNR, and stakeholders to
17. increase boater registration fees to ensure that the revenues generated will continue to augment
18. the resources required to operate and maintain the Michigan State Waterways Program, including
19. the public DNR-owned and Grant-in-Aid harbor facilities and boating access sites and the overall
20. infrastructure and operations needed to support a sustainable, statewide recreational boating
21. Program.

Resolution #9
Requires 2/3 Majority
PASSED

Submitted by: Rob Miller, Vice President, Mark Tarman, Individual Member
Passed: March 9, 2024 Annual Convention
Title: Treestands on Public Lands

1. **WHEREAS:** Michigan Wildlife Conservation Order (WCO) states that if you hunt on public land,
2. your tree stand must be portable and your name and address, Michigan driver's License number,
3. or DNR sports card number must be affixed in legible English that can be easily read from the
4. ground, and;
5. **WHEREAS:** WCO lays out the dates a blind or stand can be left on public land, which varies by
6. season, and;
7. **WHEREAS:** WCO also states if you leave a tree stand or blind in the woods overnight on public
8. land, that stand becomes public domain, and therefore, anybody can use it, and;
9. **WHEREAS:** To purposefully use another hunter's setup is arguably an unethical choice that most
10. often creates immediate conflict between all parties involved, and;
11. **WHEREAS:** Michigan has +/- 8.2 million acres of public land available between state and
12. federally owned, and;
13. **WHEREAS:** Michigan offers more public land opportunities than any other state
14. east of the Mississippi, and;
15. **WHEREAS:** There is a genuine concern of liability should someone get hurt while using someone
16. else's equipment, NOW;
17. **THEREFORE BE IT RESOLVED:** MUCC supports NRC action to change the current regulation
18. that allows an individual to utilize another individual's legally placed hunting equipment, such as a
19. tree stand or other portable blind on public property, and make it illegal to knowingly use a legally
20. placed stand or blind that does not belong to you or one of your immediate hunting party, without
21. written permission to do so, and;
22. **BE IT FURTHER RESOLVED:** MUCC work with the DNR to correct the explanation of using
23. someone else's tree stand in the hunting digest.

Resolution #10
Requires Simple Majority
PASSED

Submitted by: Erik Schnelle, Michigan State Council – National Deer Association
Passed: March 9, 2024 Annual Convention
Title: MUCC Support For DMU Antlerless Harvest Goals

1. **WHEREAS:** under-harvesting or overharvesting antlerless deer can have a damaging effect on
2. deer herds, deer hunting and wildlife habitat, and;
3. **WHEREAS:** achieving an appropriate level of antlerless harvest is necessary to responsibly
4. manage deer densities, deer health and wildlife habitat quality, and;
5. **WHEREAS:** the appropriate level of antlerless harvest will vary for every deer management unit
6. (DMU) in the state of Michigan, and;
7. **WHEREAS:** harvest goals are widely used and a successful tool for managing wildlife and
8. fisheries, and;
9. **WHEREAS:** Michigan has successfully implemented a mandatory reporting system for deer that
10. enables hunters to track harvest in near real-time throughout the deer seasons and alert hunters
11. on progress toward goal achievement via email, and;
12. **WHEREAS:** Michigan has a need to harvest more antlerless deer in many parts of the state yet
13. 75% of the state's hunters won't shoot an antlerless deer, only 17% of the state's hunters take one
14. antlerless deer and 8% of Michigan's hunters take more than one antlerless deer, and;
15. **WHEREAS:** Antlerless harvest has declined by about 28% over the last 20 years, NOW;
16. **THEREFORE BE IT RESOLVED:** that MUCC work with the DNR and NRC to implement annually
17. adjusted DMU level antlerless harvest goals, educate and inform hunters regarding those goals,
18. provide in-season information to hunters on goal achievement, and in cases of significant
19. overharvest allows for the closing of seasons or limitation of additional harvest.

Resolution #11
Requires 2/3 Majority
PASSED UNANIMOUSLY

Submitted by: Merle Jones, MTPCA
Passed: March 9, 2024 Annual Convention
Title: Support of Year Round Coyote Hunting

1. **WHEREAS:** MUCC has long supported controlling the coyote population via hunters and trappers
2. in Michigan passing resolutions supporting night-time predator hunting with centerfire firearms
3. (2016), allowing the use of #3 and #4 buckshot at night (unanimous vote 2013), expanded
4. hound hunting opportunity at night (2012), and the taking of coyotes during deer season (2010),
5. among others, and;
6. **WHEREAS:** Coyotes are abundant in all 83 Michigan counties, coyotes have expanded their
7. populations into all major urban areas and Michigan communities continue to struggle with coyote
8. population issues, and;
9. **WHEREAS:** Coyotes have no natural predators in the majority of their range, coyotes carry
10. diseases like rabies and mange and coyotes have a virtually limitless capacity for population
11. expansion, and;
12. **WHEREAS:** Coyote population management benefits the ecosystem, coyote health, all MUCC
13. stakeholders, and the residents of Michigan, and;
14. **WHEREAS:** Hunting is one of the most efficient methods of population management, and modern
15. coyote hunting has experienced participation growth statewide, and;
16. **WHEREAS:** Damage or nuisance control regulations during any restricted seasons do not allow
17. for the continued statewide take required to effectively keep coyote populations in check, NOW;
18. **THEREFORE BE IT RESOLVED:** Michigan United Conservation Clubs support “year-round”
19. Coyote Hunting, and stand in opposition to any further limitations, restrictions, or bans including
20. those on coyote hunting tournaments that follow hunting regulations, that would reduce the
21. opportunities for the vital management of coyote populations, lacking any significant biological
22. justification.
23. **BE IT FURTHER RESOLVED:** MUCC supports the quiet period from April 16th - July 7th where
24. no hunting dogs are allowed.

Resolution #12
Requires 2/3 Majority
PASSED

Submitted by: Travis White, Individual Member
Passed: March 9, 2024 Annual Convention
Title: Protecting the High-Quality Lake Trout Fishery of Stannard Rock

1. **WHEREAS:** Stannard Rock is an isolated reef complex in Central Lake Superior, comprising nine
2. square miles or 0.03% of Lake Superior, which is home to a finite population of wild, native lake
3. trout with unique population dynamics of higher quality (particularly a broad size distribution),
4. compared to other parts of Lake Superior [1]. The reef complex features rock formations and
5. bathymetric characteristics that concentrate fish in certain areas, making vertical jigging and
6. shallow water casting effective and preferred angling methods, and;
7. **WHEREAS:** Stannard Rock has the highest catch rates measured in Lake Superior for lake trout
8. [2], and the catch rate of trophy-size fish (Michigan's Master Angler Program defines this as lake
9. trout greater than 34 inches in length) is markedly greater at Stannard Rock than elsewhere in
10. Lake Superior [1], and;
11. **WHEREAS:** Michigan's state record lake trout, weighing 61.5 pounds at 49 inches in length, was
12. caught jigging at Stannard Rock in 1997. For these reasons, Stannard Rock is a world-renowned
13. fishery for trophy lake trout, described by many anglers as the best lake trout fishing destination in
14. the Great Lakes, and;
15. **WHEREAS:** Although the status of Stannard Rock lake trout is healthy, a modest increase in
16. mortality could threaten sustainability [3]. Progressive anglers have voiced an interest in
17. developing protective measures for offshore Lake Trout, and establishing a special status for
18. these sites would be logical [2], and;
19. **WHEREAS:** at Stannard Rock the water temps are very cold during most of the year and the lake
20. trout are a slow-growing, late-maturing species with generally low reproductive potential [5].
21. Though long-lived, both males and females, on average, do not reach sexual maturity until six to
22. eight years of age [6]. Length-at-age studies have found that lake trout at Michigan's Master
23. Angler minimum size of 34 inches range from 15 to more than 40 years of age in Lake Superior
24. [7]. The population of lake trout at Stannard Rock is one of few in Lake Superior that presently
25. includes fish of this caliber; the high relative abundance over a small geographic area results in
26. high catchability of this caliber of fish at Stannard Rock, surpassing other fisheries around the lake
27. [1], and;
28. **WHEREAS:** the Stannard Rock Lake Trout are wild, native strains, including all four major

29. ecotypes found in Lake Superior (lean, siscowet, humper, and redfin). Stannard Rock has ample
30. suitable spawning habitat and supports natural reproduction. Tagging studies have shown that
31. there is little migration of fish between Stannard Rock and nearshore fisheries [1]. If stocking
32. is needed in the future this would alter the genetic makeup of the population at this fishery, and;
33. **WHEREAS:** the Stannard Rock Lake Trout population is largely isolated from other populations in
34. Lake Superior and has experienced significant increases in exploitation by charter and
35. recreational anglers in recent years, resulting in higher angling effort and harvest [1]. Non-charter
36. angling effort is increasing, but to what extent is largely unknown [1]. External factors such as
37. social media, improved marine forecasting, and fishing technologies such as live sonar
38. (LiveScope) have made this fishery more accessible than ever before. The mortality rate for lake
39. trout at Stannard Rock has been found to be higher than popular nearshore fishing areas, which
40. points to the impact of concentrated angling pressure [1], and;
41. **WHEREAS:** DNR tagging studies have found a higher tag return rate from fish tagged at
42. Stannard Rock compared to nearshore fisheries, suggesting a high level of fishery exploitation [1].
43. Charter boat reporting data has shown a concerning trend in the past five years of a rapid decline
44. in lake trout catch rates at Stannard Rock [1]. This brings into question this population's ability to
45. sustain the qualities that make it unique, including the size and age distribution of its members,
46. and also its total population, and;
47. **WHEREAS:** In a recent DNR survey of more than 1100 anglers, 85% of charter and 79% of non-
48. charter favored stronger regulations to protect the fishery at Stannard Rock [1][2]. The current
49. Michigan DNR lake trout fishing regulations have the Stannard Rock area lumped inside a zone
50. that is part of the highest limit of lake trout, the five fish a day limit area, and currently allows for
51. harvest of any size fish (limiting each angler to one fish over 34 inches; per day). High catch
52. rates at Stannard Rock are possible, thus significant harvest is allowed under current regulations,
53. and;
54. **WHEREAS:** High catch and release mortality suggests that a length-based regulation may be
55. ineffective in reducing harvest because of this mortality; lowering possession limits could be more
56. effective in protecting the fish population [1]. The same recent DNR survey found that of those
57. that targeted Lake Trout, anglers preferred to harvest Lake Trout between 20-25 inches (62%),
58. followed by 15-20 inches (25%), 25-30 inches (11%), and 30+ inches (2%), which could help
59. inform potential changes to size limits or the design of slot limits to reduce harvest [2]. Party
60. fishing is difficult or impossible to enforce here, and as such party limits might also be considered
61. as an alternative to individual angler limits. This could afford the opportunity to reduce total
62. harvest and harvest of many trophy fish by a single party, and;

63. **WHEREAS:** recent studies have shown that hooking mortality is a high factor on the survival of
64. released lake trout [4]. Total mortality rates are comprised of not only angler harvest but also
65. delayed mortality post-release. This combination of harvest and practicing catch and release
66. angling might yield excessively high mortality rates for lake trout at Stannard Rock. To date, no
67. studies have been done to evaluate catch-and-release methods (such as the use of deep water
68. release devices) to reduce catch-and-release mortality, and;

69. **WHEREAS:** Jigging and shallow water casting are preferred fishing methods over trolling, and the
70. average water temperature is cooler year-round at Stannard Rock. Angler education and
71. behaviors may prove to be important to achieving goals to manage the Stannard Rock fishery, in
72. light of our current understanding of factors contributing to catch and release mortality, and;

73. **WHEREAS:** there are other unique offshore fisheries across the Great Lakes that might also
74. benefit from special designations as “trophy fishing areas”. There are already areas in Lakes
75. Huron and Michigan have special “lake trout refuge”; designations in place that completely
76. restrict fishing. Lake Superior has none of these areas but could benefit from having areas with
77. special regulations to conserve its historic lake trout fisheries. “Refuge” areas that are closed to
78. fishing are not being advocated for on Lake Superior as part of this resolution but rather an
79. alternative designation that allows fishing while also conserving the high-quality fishery, and;

80. **WHEREAS:** The DNR conducts periodic surveys of its lake trout stock and fisheries across Lake
81. Superior. Stannard Rock was most recently surveyed between 2011 and 2015, and prior to that
82. the most recent survey was conducted circa 1975. The more recent survey found a slightly lower
83. relative abundance of lake trout than the prior survey, but overall the population metrics
84. indicate that Stannard Rock is a high-quality lake trout fishery, exhibiting broad size distribution
85. and high relative abundance of lake trout [3]. Many fish were sampled that would meet or
86. exceed Master Angler size, including individuals greater than 40 inches in length (a benchmark
87. widely accepted by the North American fishing community as trophy size for lake trout). This
88. caliber of fish has been captured at a much lower frequency in other sampling areas across Lake
89. Superior[1]. DNR sampling does not effectively capture the largest fish in a population due to gear
90. limitations, and;

91. **WHEREAS:** the draft Lake Superior Fisheries Management Plan 2023–2033 establishes
92. “Objectives for Lean Lake Trout: Maintain populations of Lake Trout that support high-quality
93. recreational fisheries at Stannard Rock, Big Reef, and Isle Royale; Management Actions and
94. Evaluations: Continue to survey and assess the status of offshore Lake Trout populations (Isle
95. Royale, Stannard Rock, Big Reef, and Klondike Reef-Caribou Island complex). Work with
96. anglers and citizen advisory committees to develop appropriate regulations to achieve

97. population objectives.” [2], and;

98. **WHEREAS:** the 2023 Great Lakes Decree resolves that the portions of Lake Superior Grids

99. 1130, 1131, 1230, and 1231 known as Stannard Rock will be closed to Commercial Fishing,

100. specifically, the area that is east of a line of longitude at -87.28 degrees, south of a line of

101. latitude at 47.27 degrees, west of a line of longitude at -87.11 degrees, and north of a line of

102. latitude at 47.13 Degrees, NOW;

103. **THEREFORE BE IT RESOLVED:** that MUCC work with the DNR to educate the public on

104. Catch and Release to protect the high-quality Lake Trout fishing destination that is the

105. legendary Stannard Rock fishery, and;

106. **BE IT FURTHER RESOLVED:** that MUCC encourage and support the DNR to conduct more

107. frequent, regular biological assessments in addition to social science to better understand and

108. quantify the attributes that make Stannard Rock a unique fishery on the Great Lakes, and;

109. **BE IT FURTHER RESOLVED:** that MUCC work with the DNR to study the effectiveness of

110. deep water release methods to increase survivability over surface release and explore other

111. methods of maintaining the Stannard Rock lake trout population dynamics. This might include

112. defining baseline population metrics and establishing management criteria to maintain or

113. improve on those metrics over time through available management tools, regulations, and

114. angler behaviors, and;

115. **BE IT FURTHER RESOLVED:** that MUCC work with the DNR and NRC to create a zone and

116. designation to recognize and protect the Stannard Rock fishery, potentially with different

117. regulations informed by science, to protect its high-quality status against increasing angling

118. exploitation, consistent with the management objectives established by the draft Lake

119. Superior Fisheries Management Plan 2023–2033.

Resolution #13
Requires Simple Majority
PASSED UNANIMOUSLY

Submitted by: UP Whitetails of Marquette County, Region 1
Passed: March 9, 2024 Annual Convention
Title: Include crop damage and DMAP take in harvest reporting

1. **WHEREAS:** with the implementation of the mandatory registration of whitetail deer harvested, a
2. much improved system of estimating our deer numbers and harvests are in place, and;
3. **WHEREAS:** the numbers of harvested whitetail deer reported in 2022 by the DNR do not paint
4. the total picture of animals harvested, and;
5. **WHEREAS:** Crop Damage permits, culls, tribal harvest, disease control permits (DCP) and Deer
6. Management Assistance Permits (DMAP) harvested animals are not included in the total deer
7. numbers harvested. See report summary below. www.mdnr-elicense.com/HarvestReportSummary,
8. and;
9. **WHEREAS:** these crop damage and DMAP animals are harvested by landowners and
10. designated hunters and these programs are a management tool. The numbers should reflect on
11. the yearly harvest report totals for the entire state by each county, or deer management unit, and;
12. **WHEREAS:** as an example. In 2022, the DNR reported that in Menominee County there were
13. 3354 antlered and 2052 antlerless whitetail deer harvested. These numbers on the surface
14. show that hunters in Menominee County harvested substantially more antlered animals, and;
15. **WHEREAS:** if the crop damage (734) and DMAP (448) harvest numbers for 2022 in Menominee
16. County are added in, the totals would look like the following, 3354 antlered and 3234 antlerless,
17. and;
18. **WHEREAS:** the conclusion in 2022 by the DNR and posted for Menominee County show that ⅓
19. more antlered deer are being harvested than antlerless when in reality the numbers are almost
20. 50-50 antlered and antlerless, and;
21. **WHEREAS:** for some counties of the state, these crop damage and DMAP numbers are not as
22. significant. IE in Marquette County for 2022 there were 13 Crop Damage and DMAP antlerless
23. harvests. Other counties like Menominee and counties of lower Michigan will show significant
24. number changes, and;
25. **WHEREAS:** to fully understand and manage our whitetail deer the sportsmen and women of our
26. state needs to have the best information possible to better manage the resource, especially on
27. private lands, NOW;
28. **THEREFORE BE IT RESOLVED:** that the DNR, to better show the public a more detailed picture

29. of our whitetail deer harvests, add a column to the yearly harvest reports with Crop Damage,
30. culls, tribal harvest, disease control permits (DCP), and DMAP numbers listed, and use these
31. numbers in the total yearly harvests.

Resolution #14
Requires 2/3 Majority
PASSED UNANIMOUSLY

Submitted by: Erik Schnelle, Michigan State Council – National Deer Association
Passed: March 9, 2024 Annual Convention
Title: Support For Expansion of Venison Donation Programs

1. **WHEREAS:** Sportsmen and Sportswomen as well as non-hunters in the state of Michigan have
2. supported the Michigan Sportsmen Against Hunger (MSAH) organization and its program since its
3. inception in 1991, and;
4. **WHEREAS:** the Michigan United Conservation Clubs (MUCC) is one of the founding groups who
5. fostered the Michigan Sportsmen Against Hunger organization and continues to be involved and
6. represented on the board of directors for the MSAH, and;
7. **WHEREAS:** the mission of the MSAH is to provide ground venison to state-recognized non-profit
8. food banks, shelters and pantries providing food assistance to the hungry of the state of Michigan
9. through donated deer from hunter and deer management programs and the processing of those
10. deer by MSAH participating processors, and;
11. **WHEREAS:** from 1991 to 2020 an estimated 831,519 pounds of ground venison has been
12. provided to Michigan-based non-profit food banks, shelters, and pantries to create up to
13. 3,326,076 hot and high in protein meals through the combined effort of the MSAH and the
14. Michigan Department of Natural Resources (MDNR), and;
15. **WHEREAS:** Michigan has a need to harvest more antlerless deer in many parts of the state yet
16. 75% of the state's hunters won't shoot an antlerless deer, only 17% of the state's hunters take
17. one antlerless deer and 8% of Michigan's hunters take more than one antlerless deer, and;
18. **WHEREAS:** Most hunters have a freezer and annual venison eating capacity, and;
19. **WHEREAS:** Hunter numbers have declined for over 20 years, and;
20. **WHEREAS:** Antlerless harvest has declined by about 28% over the last 20 years, and;
21. **WHEREAS:** The state's remaining hunters will need to harvest more antlerless deer than they
22. ever have to manage our deer herd at healthy levels, and;
23. **WHEREAS:** the wild game processors working with the MSAH are being paid at rates far below
24. current market rates, and;
25. **WHEREAS:** On September 14, 2023, the Michigan DNR mandated that all deer donated to
26. MSAH that were harvested from counties with known Bovine Tuberculosis (bTB) or Chronic
27. Wasting disease (CWD) be tested and found negative for those and that all venison donated in
28. Michigan must be tested for lead, and;

29. **WHEREAS:** Disease testing timeframes can vary from 2 to 6 or more weeks and most processors
30. do not have adequate freezer space to hold donated deer or venison while waiting, NOW;
31. **THEREFORE BE IT RESOLVED:** that MUCC work with the DNR and legislature to ensure that
32. The state of Michigan provide the funds and policies necessary to efficiently test and distribute
33. venison to the states-hungry, to expand the program to processors in every county in the state, to
34. compensate processors for donated venison at annually adjusted market rates, ensure that
35. processors have adequate storage space for donated venison while waiting for test results (in
36. some cases this may mean providing seasonal refrigerated trailers or freezers), and that they are
37. compensated for the necessary additional mandated lead, CWD and bTB testing work, and;
38. **BE IT FURTHER RESOLVED:** that MUCC continue to work for programs, which could include
39. license fee rebates, to encourage venison donations from hunters and donations from culling
40. Programs, and;
41. **BE IT FURTHER RESOLVED:** MUCC work with the DNR to help educate the hunting community
42. and license agents to support MSAH.

Resolution #15
Requires 2/3 Majority
PASSED UNANIMOUSLY

Submitted by: Eric Braden, Executive Board
Passed: March 9, 2024 Annual Convention
Title: MUCC Opposition to the Nyberg Amendment

1. **WHEREAS:** The Nyberg Steelhead Amendment – Presented during the October NRC Meeting
2. Amends proposed Fisheries order 200.23A, and;
3. **WHEREAS:** MUCC supports equal access and opportunity of take for all Sportsmen and
4. Sportswomen, and;
5. **WHEREAS:** MUCC Supports the Natural Resources Commission (NRC) management of
6. Michigan’s Fisheries and Wildlife populations utilizing “Principles of sound scientific Management”
7. as noted in Public Act 377 of 1996 “Proposal G”, and;
8. **WHEREAS:** MUCC Supports the 2014 Michigan Ballot Initiative (Scientific Fish and Wildlife
9. Conservation Act), where 374,000 sportsmen and sportswomen’s signatures initiated an indirect
10. state statute. The initiative empowered the NRC to be the sole designator of game species and
11. gave exclusive authority to the NRC to regulate sportfishing, and;
12. **WHEREAS:** The “Michigan Steelhead Management – Large River Creel Surveys to inform status
13. of the fishery”, presenters Seth Herbst and Jay Wesley NRC Fisheries Subcommittee Meeting
14. September 14, 2023, indicated that the steelhead management goal is to provide year-round
15. steelhead angling opportunities to diverse user groups with differing ability levels and preferred
16. fishing methods in Michigan Great Lakes and connected waters. The presentation also included
17. “Steelhead Regulatory Recommendations” to retain existing steelhead regulations, continue to
18. collect information and reassess as the 2027 regulatory sunset approaches as the perceived
19. benefit of the restricted seasonal harvest wouldn’t be realized for several years. Additional
20. “Steelhead Regulatory recommendations” were made under the “Natural Steelhead – Summary of
21. Status” to Provide time to assess fishery dynamics as the Biological evidence does not indicate
22. changes are warranted, and;
23. **WHEREAS:** The proposed changes within the Nyberg Amendment would represent a restriction
24. of take mid-season creating confusion among anglers, NOW;
25. **THEREFORE BE IT RESOLVED:** MUCC strongly opposes the proposed Nyberg Amendment
26. based upon information provided by MDNR Biologists, as outlined in the “Michigan Steelhead
27. Management – Large River Creel Surveys to inform Status of the fishery”, Presenters Seth Herbst
28. and Jay Wesley NRC Fisheries Subcommittee Meeting September 14, 2023, and;

29. **BE IT FURTHER RESOLVED:** That the NRC work with the MDNR Biologist, State Universities,
30. Organizations and the many Citizens Fisheries Advisory Councils to provide and assess
31. information for the “Science-based” management of Michigan’s Fisheries.

Resolution #17
Requires Simple Majority
PASSED

Submitted by: Steve Dey, Executive Board, George Lindquist, Executive Board, Gary Gorniak, CPB Region 2
Passed: March 9, 2024 Annual Convention
Title: Support of the Sportsmen's Alliance Actions

1. **WHEREAS:** MUCC passed a resolution in 2019 supporting a Gray Wolf hunting and trapping
2. season across the entire Upper Peninsula and maintaining a population of 300-400 animals in the
3. U.P., and;
4. **WHEREAS:** the Sportsmen's Alliance Foundation, together with the Michigan Bear Hunters
5. Association, Upper Peninsula Bear Houndsmen Association, and Wisconsin Bear Hunters
6. Association, filed a pair of petitions under the Endangered Species Act (ESA) with the U.S. Fish &
7. Wildlife Service (FWS) on gray wolves, and;
8. **WHEREAS:** one petition is to recognize and delist a Western Great Lakes Distinct Population
9. (WGL DPS) of wolves within Michigan, Minnesota, and Wisconsin (and areas of adjoining states)
10. while, and;
11. **WHEREAS:** the other petition requests FWS to exercise specific management options on
12. remnant wolf populations existing outside of the WGL DPS and the Northern Rocky Mountain
13. Distinct Population Segment (NRM DPS) created by Congress in 2011, and;
14. **WHEREAS:** the WGL DPS petition points out wolf populations have far surpassed FWS recovery
15. goals in the WGL region, with the total population now exceeding 4,000 wolves. With estimates of
16. 2,700 wolves in Minnesota, 1,000 in Wisconsin, and more than 600 in Michigan, and;
17. **WHEREAS:** the original recovery goals for the species were 1,400 for Minnesota and a minimum
18. combined population of 100 wolves for Michigan and Wisconsin together, and;
19. **WHEREAS:** in all three states, fish and wildlife managers estimate that wolves occupy nearly all
20. suitable habitat throughout their range, NOW;
21. **THEREFORE BE IT RESOLVED:** MUCC supports the Sportsman's Alliance Foundation in both
22. its petitions for Gray Wolf management.

Resolution #19
Requires Simple Majority
PASSED

Submitted by: Education Committee, Dawn Levey, Executive Board, Len Shaner,
Executive Board
Passed: March 9, 2024 Annual Convention
Title: Use of Social Media by Members

1. **WHEREAS:** Michigan United Conservation Clubs (MUCC) sets the standard for conservation in
2. the State of Michigan, and;
3. **WHEREAS:** MUCC promotes safe shooting sports, ethical and humane harvesting practices
4. including but not limited to hunting, fishing, and trapping, and;
5. **WHEREAS:** It is paramount that MUCC members, affiliates and clubs publicly display said
6. practices in an ethical and humane manner which includes – news media and social media in
7. whatever means is trending, NOW;
8. **THEREFORE BE IT RESOLVED:** Michigan United Conservation Clubs educate members,
9. affiliates, and club members on the implications of posting perceived offensive photographs and
10. materials that may offend the general public and would give reasons for organizations like the
11. Humane Society of the United States to use them against gun owners, hunters, anglers and
12. trappers, and;
13. **BE IT FURTHER RESOLVED:** MUCC work with and encourage individuals and other
14. conservation organizations and hunting, fishing, trapping, shooting sport groups to also refrain
15. from publicizing perceived offensive photographs or information.
